Sprint Information

- **Project Name:** Lab Equipment Knowledge Hub
- **Customer Name:** Zeth Danielsson
- **Sprint Goal:** Maintainers have edit functionality for users and items, all users can read and write articles, anyone can scan QR codes to visit the corresponding item page, items can be grouped.

Backlog

ID	User Story	Size	Acceptance Criteria	Notes
62	As any user I want to see the shelf place for an item so that I know where they are.	XS	Given that an item has a shelf place, when the user views the item, then the item's shelf place is displayed.	Shelf space will not be mandatory.
107	As a user I want to see a QR code on the item page so that I can scan it.	XS	Given that the user is logged in, when the user views the item page, then a QR code for the item is displayed.	
59	As a maintainer I want to add shelf place so that I know where the items are.	XS	Given that the maintainer is creating or editing an item, when they enter a shelf place and save the item, then the shelf place is stored for that item.	
85	As a maintainer I want to edit items so that I can keep them up to date.	S	Given that the maintainer is viewing an existing item, when they edit the item's information and save the changes, then the updated information is stored.	
100	As a maintainer I want to set the status of the item so that it is clear which items are available.	S	Given that the maintainer is creating or editing an item, when they select a status and save the item, then the selected status is stored.	
106	As a user I want to scan a QR code so that I can navigate to the connected item page.	S	Given that the server accepts the connection as secure, and the user approves the usage of the camera on the device, when the user scans the QR code, then the user is directed to the page for the associated item.	The QR library requires HTTPS or to manually installing server certificates on the user's device to be able to use the camera on the user's device.
65	As a maintainer I want to show every user account so that I can manage them.	M	Given that the maintainer is viewing the user account management page, when the page is loaded, then all user accounts are shown.	
66	As a maintainer I want to edit accounts so that they can be updated.	M	Given that the maintainer is viewing a user account, when they edit the account information and save the changes, then the updated information is stored.	
83	As any user, I want to read articles so that I can get a deeper understanding of the items.	M	Given that an article exists, when the user opens the article, then the article content is displayed.	

ID	User Story	Size	Acceptance Criteria	Notes
84	As any user I want to submit articles so that I can share my knowledge of the items.	M	Given that the user is on the add/edit article page, when they enter the article content and submit it, then the article is stored.	
53	As a maintainer I want to be able to group items so that articles can be written about an item group.	L	Given that the maintainer is managing items, when they assign items to a group and save the changes, then the items are associated with that group.	
91	As a user I want to see my profile so that I can verify that the information is correct.	M	Given that the user is signed in, when they open their profile, then their profile information is displayed.	
92	As a user I want to edit my profile so that I can keep my data up to date.	M	Given that the user is viewing their profile, when they edit their profile information and save the changes, then the updated information is stored.
